Professional Experience

Marriott International (Contractor via Provalus) Remote

Project Manager *Jan. 2025 — Present*

- Led Marriott's global Windows 11 upgrade project across 180,000+ managed endpoints, achieving a 99.8% completion rate with zero critical business disruptions, ensuring all devices were upgraded ahead of Windows 10 end-of-life and eliminating unsupported OS risk across the enterprise.
- Spearheaded an enterprise-wide VDI vulnerability remediation initiative, achieving a 75% reduction in critical vulnerabilities and enhancing the organization's security and compliance posture.
- Facilitated meetings with global IT leadership (US/CAN, CALA, EMEA, APAC) and the Global Technology Council to ensure alignment on deployment plan and ensure no business disruption during deployment
- Authored comprehensive communication strategy including Global updates to IT managers and collaborated with internal teams to develop end-user messaging through Marriott channels along with targeted Franchise Management Company communications

Associate Software Engineer *Oct. 2023 — Jan. 2025*

- Developed and maintained Enterprise Browser management solutions across Marriott's global technology infrastructure, ensuring compatibility and seamless deployment for 250,000+ devices
- Collaborated with cross-functional teams including application owners, vendors, and engineers to troubleshoot technical issues and implement software solutions for the Island Enterprise Browser
- Created comprehensive technical documentation for stakeholders to streamline migration process and reduce implementation complexity
- Created knowledge base articles and internal documentation to support engineers, reducing support tickets, and accelerating incident resolution

Personal Projects

Portfolio Website (https://www.jorgehernandez.net) Jun. 2020 — Present

- Designed and developed a fully responsive personal portfolio website from scratch using HTML, CSS, and JavaScript
- Implemented responsive design principles ensuring optimal user experience across desktops, tablets, and mobile devices through custom CSS media queries and flexible layouts
- Built interactive UI components, including dynamic navigation, smooth scrolling animations, and buttons
